

Quality

QUALITY LUCAS GLASS

Lucas Glass certifies that all its products, laminated glass (windcreens for passenger cars, light and commercial vehicle) and tempered glass (rear and side glass) are manufactured to the most stringent quality standards in place for the automotive sector. The full range is compliant of European safety regulation, R43 rev. 1/add. 42/rev. 2.

Our manufacturing excellence is guaranteed with the implementation of the most rigorous global quality processes, which include:

- ISO/TS 16949
- ISO 9001: 2015
- ISO 14001

These quality certifications give LUCAS GLASS recognition as a supplier of automotive glass, complying with the standards required for the European and North-American markets, and equal to OEM products.

COMMITMENT TO SECURITY (ADAS SYSTEM)

ADAS SYSTEM, Advance Drivers Assistance Systems, Lucas Glass committed with safety.

Our Lucas Glass front windcreens are manufactured to strict OE level characteristics. This assures perfect calibration of cameras and any other electronic safety equipment fitted on the vehicle's glass.

Lucas, story of a success

HISTORY

Long before the Ford Model T, even before the first Mercedes 'horseless carriage', there was Lucas.

Our business was established in 1872, the same year that the petrol engine was first patented.

The story of the business that Joseph Lucas founded in Birmingham, still the global HQ of Lucas today, is the story of one of the most successful automotive brands in history.

The Lucas brand has been offering top quality automotive products throughout the world for over 140 years.

Its international success and reputation are based on providing the widest range of products that offer exceptional technology and innovation. Lucas currently operates throughout the world, and is continuously developing new market opportunities.

1870

1870 - 1900
Establishment of the company

1900

1900 - 1920
The product range grows

1920

1920 - 1940
The largest supplier of electrical equipment

1940

1940 - 1960
The new braking business
