

LUCAS DIESEL SYSTEMS, THE FOUNDATION OF YOUR SUCCESS.

In order for today's garages to have the best professional service, **Lucas Diesel Systems offers you the most comprehensive solution:** spare parts, testing equipment, full training, technical support and assistance.

SPARE PARTS

- Wide range of multibrand products
- The largest catalogue in the market, with over 10,000 spare parts and 2,000 reman products
- Spare parts available exclusively for the new products that form part of the latest diesel systems
- Over 140 years of history guarantee our Lucas brand, offering products featuring exceptional technology and innovation throughout the world

TESTING EQUIPMENT

- For all brands
- Suitable for each type of garage
- Plug & Play
- Easy use
- Automatic, semi-automatic and/or manual work programme
- Maximum quality and precision
- Approved tests
- Permanent updating online

COMPREHENSIVE TRAINING

- Training experience at the highest level, tailored to each garage
- Extensive programme of courses in automobile technology
- Theoretical and practical training in small groups
- E-learning
- Professional technical, expert and qualified teachers
- Courses endorsed by the IMI (Institute of the Motor Industry)

TECHNICAL HELPLINE

- E-Lucas Troubleshooting
- Direct technical support and assistance
- Fast and professional analyses, diagnoses and solutions
- Technical experts on hand
- Coverage of all brands and manufacturers
- Greater output for your business

EDT 320

SPECIALIZED TEST BENCH FOR ALL BRANDS OF COMMON RAIL INJECTORS

The modern design of the test bench enables the diesel systems specialist to efficiently check any brand of Common Rail injector, including piezoelectric systems.

The tests are performed within a programme of semi-automatic unitary tests, in which the functions as well as the performance of the product are tested, always in accordance with the original specifications of the manufacturers. All of the test records are approved by the Lucas Diesel Systems Quality Department, additionally guaranteeing the fulfilment of the applicable regulations on pollution.

Once the tests have been completed, and in the event that the results are not satisfactory, Lucas software will offer you technical support and assistance to repair the injector and correct the values submitted.

Thanks to the ongoing development of test records for all of the systems and the generation of new accessories, the EDT 320 is equipped to meet any market requirements, and the new records can be updated onto the test bench directly over the internet.

The high precision of the measurement system guarantees extraordinary repeatability, which ensures the excellent quality of the tests.

In addition, with an easy to use, intuitive, interactive and dynamic system, the diesel specialist can perform tests on the components quickly and efficiently, therefore gaining a lot of profitability for your business.

The EDT 320 offers great advantages, which make it possible to enjoy silent operation at the highest level of performance, with a low level of maintenance and excellent durability.

All of the Lucas Diesel Systems testing equipment is designed with a strong commitment to environmental care and to guarantee the minimum risk for the diesel specialist professional.

TECHNICAL SPECIFICATIONS

DRIVE SYSTEM	
MOTOR	3 PHASE 400 VAC or 220 VAC (3 phases + 1 earth + 1 neutral)
POWER	3 kW - 4 Hp

MEASUREMENT SYSTEM	
RESOLUTION	0.5 ml
PRECISION	± 1 ml / 65 ml
RETURN	Numerical flow values shown in a graduated glass burette

FEED SYSTEM	
OIL TANK	10 l
REFRIGERATION	Integrated refrigeration system: without water - without air
MAXIMUM PRESSURE	Generated by high BOSCH CP3 CR pump Up to 2,000 Bar
FILTRATION	Capacity up to 3µ

COMPUTING SYSTEM	
OPERATING SYSTEM	PC not included
SOFTWARE	HAWK - supplied on CD

OPERATION SYSTEM	
<ul style="list-style-type: none"> Nozzle and return leak tests Measurement of injection quantity at: <ul style="list-style-type: none"> Pre-injection (VE) Idle speed (LI) Emissions (EM) Full load (VL) Diagnosis of electrical coil and its condition (graph on monitor) 	

APPLICATIONS	
CARS	LIGHT COMMERCIAL
HEAVY COMMERCIAL	AGRICULTURAL

DIMENSIONS	
HEIGHT	1,000 mm
WIDTH	820 mm
DEPTH	870 mm
VOLUME	0.7 m³
WEIGHT	270 kg
BODY CONSTRUCTION	Nickel-plated iron
SAFETY DOOR	<ul style="list-style-type: none"> Transparent plexiglas protector Immediate stoppage of the motor if opened

INFORMATION SYSTEMS	
MULTIBRAND	All brands
TEST RECORDS	<ul style="list-style-type: none"> Generation and storage of test records Printing of reports with achievable reference values
SETTINGS	Personalised data tables
UPDATING	Permanent over the internet
SOURCES	Original specifications of the manufacturers
